Practicon® **Stay-Put™ Chair Covers**

Instructions for Use

General Information:
Protective barrier products are a family of impermeable covers intended to protect both the healthcare worker and the patient from the transfer of bodily fluids, particulates, and microorganisms. They also simplify clean-up of the dental operatory and medical equipment.

Indications For Use:
These barrier products are intended to serve as a disposable barrier for dental instruments and equipment, including dental chairs. This device is non-sterile and intended for single-patient use only.

Contraindications, Precautions:
None known.

Warnings:
Do not reuse. Risk of infection from cross-contamination.

Step-by-Step Instructions:
1. Slide pocket over the back of the chair.
2. Make sure cover is secure to prevent sliding.

Disposal:
Dispose of after each patient according to local, regional, or national regulations.

Storage:
Store in ambient temperature.

Do not reuse. This is a single use device.

Non-sterile

For professional use only.
